

Meeting Minutes	Date: 18/08/2026 Time/Location: Physically in University
Meeting with: Susmita Sharma Devi Maya Pooja Tiwari Jenish Gurung	
Purpose of Meeting: The purpose of the meeting was to review the SRS and BRD, ensure that the requirements are clearly understood, and confirm that they align with the project objectives and user needs. Notes Each member discussed their BA responsibilities and approach to working with their group	
Key notes Requirements should be clear, user-focused, developable and testable. Good communication and proper documentation help reduce misunderstandings.	Decisions The BA role involves requirements, communication, user understanding and change management.
Action items The team went through the SRS and BRD in detail, discussed the key requirements, and clarified any areas that required further understanding. The documentation was reviewed to ensure that the requirements were clear and suitable for the development and testing stages.	
Next steps The required system diagrams and non-functional requirements will be completed and reviewed. Once finalised, the relevant documentation will be shared with the testers so they can prepare and carry out the required testing activities.	
Next meeting	Date: 01/092026,CDU Campus Time: 4:00PM
